

**SunSource offers additional customer benefits
with acquisition of FPT (Fluid Power Tech)**

To our valued customer:

SunSource Fluid Power has recently acquired the Colorado-based FPT (Fluid Power Tech), establishing us as the leading distributor of hydraulic, pneumatic, process, and fluid power technologies.

Our gain is also your gain as we're now able to provide you with:

Enhanced Logistics -

More than \$30 million of inventory representing 250 high-quality suppliers.

Expanded Locations -

5 stocking branch locations to serve you in Colorado, Utah, and Arizona.

Unparalleled Customer Service -

20 technical sales representatives and 20 customer service representatives to ensure you get the right component at the right time.

Largest Technical Support Network in the Region -

21 fluid power engineers are ready to help design your fluid power, motion control and filtration applications.

Fluid Power System Fabrication -

Your fabricated systems needs are easily handled by our qualified designers, technicians, and our 75,000 square feet of state-of-the-art facilities.

Largest Nationwide Network of Service and Repair Shops -

20 service and repair shops provide hydraulic and hydrostatic remanufacturing to keep your plants running.

We embrace this opportunity to expand our capabilities and offer our customers an even broader range of services and support. We continue to appreciate your business and hope you will soon discover the many benefits this partnership will bring to your company.

Sincerely,

A handwritten signature in black ink that reads 'Justin M. Jacobi'.
